

LEADING PROVIDER OF SUSTAINABLE REFRIGERANT MANAGEMENT SOLUTIONS

Since our inception, Hudson Technologies has embraced the circular economy with our proven environmentally focused products and services.

Hudson Supports Your Needs:

Sales

We offer one of the largest refrigerant inventory selections in the country, including a wide-range of certified, reclaimed refrigerants.

Reclamation

We are one of the largest refrigerant reclaimers in the country. Selling your refrigerant is a simple and easy way to realize the economic value of your recovered refrigerant.

Sustainability

Our commitment to reclaiming, recertifying, and reusing refrigerants reduces waste, and GHG emissions and creates maximum economic value for used refrigerants. Documenting your CO2e avoidance helps contribute to your ESG Goals.

Recovery

We provide on-site refrigerant recovery services through our nationwide network of regional service facilities.

On-Site Service

Maintaining optimal chiller and plant performance is one of our specialties. We leverage our expertise and sustainable best practices to revive system efficiency, reduce energy consumption, and avoid refrigerant atmospheric release.

RECLAIM WITH THE CLEAN EXCHANGE PROGRAM

Hudson Technologies is proud to offer you a simple, hassle-free reclaim program.

BENEFITS:

- We pay **market leading prices** for your used refrigerant based on purity level.
- We will pick your tanks up from your location. **NO MINIMUM REQUIRED!**
- We do a **like for like swap** with an equal amount of **clean, freshly painted, in hydro test date, empty recovery cylinders**.
- We made the process **simple, hassle-free** and **profitable for YOU!**
- You are helping reduce the overall environmental impact refrigerants have on our world.
